

FLAME ARRESTERS

GPI STAINLESS STEEL FLAME ARRESTERS

Equip your performance marine engine with a U.S. Coast Guard approved GPI flame arrester offered in nine different sizes to accommodate a variety of popular four-barrel Holly/Rochester and Dominator carburetor models. GPI flame arresters are manufactured using 100% highly polished stainless steel construction to insure maximum corrosion resistance, even in harsh saltwater environments. Each GPI flame arrester model has been specially engineered to deliver optimum air intake to the carburetor. Available in two diameter sizes (8" and 10") and three heights (2", 3" and 5").

Catalog No.	Item No.
